Routine Food Inspection

Arizona Foods, Inc.
Atlanta Bread Company
10855 W Park Pl
Milwaukee, WI 53224

September 20, 2007

The following list of violations of the Wisconsin Administrative Code as adopted by reference in the Milwaukee Code of Ordinances Chapter 68, and/or other City ordinance(s) must be corrected as soon as possible but not later than the date specified. A re-inspection fee may be assessed if the violation is not corrected by that date. An inspection fee may be charged for any repeat violations.

Fee Amount: \$0.00

Code Number	Description of Violation	Correct By
2-301.14	Observed employees taking gloves off and putting on new gloves without washing hands. Employees must wash hands when putting on new gloves, when taking off used gloves, and when switching between tasks that can cause contamination to food or food contact surfaces. Instruct all employees the proper hand washing methods and procedures when dealing with food and food contact surfaces.	09/20/2007
7-102.11	Observed spray bottles without any kind of labeling. Working containers of chemicals or toxic materials taken from bulk containers must be clearly and individually identified with the common name of the contents. Label all spray bottles with the name of the contents.	09/20/2007
5-202.11	There is no backflow device on the mop sink faucet. When using a hose, there must be a backflow device connected between the hose and the faucet of the mopsink to prevent waste water from going back into the water supply. Install a backflow preventer on the mop sink faucet.	10/04/2007

4-501.11 The following equipment requires repair:

10/04/2007

1) The drain for the food sink in the back preparation area is missing the drain handle. The hole in the drain is leaking water when the faucet is running. Have the drain handle replaced/repared so that the food sink drain functions properly.

2) The walk in cooler door handle is broken. Repair/replace the cooler door handle to code so that it functions properly.

3) Recaulk the front handwash sink to the wall. The handsink needs to be securely attached to the wall.

7-206.13 There is a fly strip hanging on the service counter near self service condiments. Fly strips can only be hung in areas where there is no food or food prep surfaces. Remove the fly strip from the counter. 09/20/2007

6-501.111 There are fruit flies present near the coffee grinding area. Provide effective pest control methods to eliminate the fruit flies. A professional pest control company may be needed. 09/20/2007

2-401.11 Observed a cup of coffee being stored above the food prep table in the back preparation area. All employee drinks need to be stored below or away from food and food preparation areas. Instruct all employees the proper areas to store personal food and drinks. 09/20/2007

7-209.11 Observed a bottle of lotion, a purse, a radio, CD's, hats, and an apron on food boxes and on the food prep table. All personal items must be stored in a designated area away from food and food preparation areas. Instruct all employees the proper area where they are to store there personal belongings. 10/04/2007

Inspection Notes

Notes: Chain the CO2 tanks in the back area. The panini machine can only be used if no sprays and no butter is being used on the bread or the unit itself. The walls and ceinling around the machine must also be kept free of grease accumulation. If these conditions are violated, the panini machine will have to be removed from the premise or a hood ventilation system will need to be installed for the unit.

On 9/20/2007, I served these orders upon Arizona Foods, Inc. by leaving this report with

Inspector Signature (Inspector ID: 66)
